

Shipping to BBWF 2017

Please note, KNect365 cannot be responsible for accepting or receiving any shipments on the exhibitors behalf.

We also do not recommend sending the shipment direct to your stand as the venue, Knect365 or Exhibition Freighting GSM will not sign for the goods on your behalf. If you chose to do this, you must be onsite to receive and sign for the shipment yourself at the time it arrives.

Exhibition Freighting G.S.M

We strongly recommend the use of the Official Freight Forwarder / Onsite Handler, Exhibition Freighting G.S.M for any shipping or exhibit handling requirements. They can provide services to collect your shipment from your premises and deliver to you stand, or receive it in Berlin at the advance warehouse prior to the event. Please contact EF-GSM for details of the warehouse address and the applicable handling charges.

Please ensure you have all the tracking numbers and details of your shipment with you at BBWF, so you may pursue this if there are any problems with your shipment / delivery.
